### ● Precise Dots Mark Device

Fine Material

Precise Assembly

Stable Quality

Long Durability

● Hartman Mulit Dot Measure Tech

150 dots of Hartman

绿光源 — High Speed CCD

Accurate Precise Measurement

阵列 — No Abba compensation needed

传感器

### ● Optional Mark Pen

Cartridge type   Ink dip type

Ink dip or Cartridge type   No scratch Lens Surface

Better Effect of Marking   Easy Operation

● UV Tester

U V 透过率

UV Test Resul

Range from 0% to

100%

29%   100%

● Frame PH Measure

LPD:28.3mm   PD:57.0mm   RPD:57.0mm
OH:16.0mm
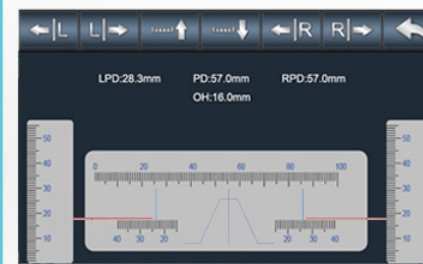

Put frame to monitor align optical center to the PD which previously taken in advance,then move up and down till the lines meet and get PH

● Data Output

1 Extenal USB and 1 RS232 interface,the date can be Synchronized/share with auto phoropter or other optical equipments

PC

or   MOBILE

or   PHOROPTER

or   REFRACTOR
