

Adopt high-brightness, cold-light illuminator, without external power supply. High-brightness LED, cold-light illuminator, its brightness up to 30000 LUX, service life more than 50000 hours. Sharp slit, the width can be adjusted continuously. Telescopic forehead-rest, easier to observe and adjust the diopter. Easier to adjust the magnification by resolvable objective lens. Small and light, only 700g including battery. Different filters:Heat Absorption;Yellow;Redfree(Green);Cobalt Blue. Full power supplied by battery can drive the slit lamp for 5-6 hours. Two magnifications for using. Easy to take for a doctor High cost-effective
Iphone 6S or 6S plus adapter (option)

Portable Slit Lamp utilizes a high luminance white LED (Light Emitting Diode) light source

Coupled with a lightweight, compact design, to give you the freedom of using a slit lamp in the palm of your hand

The portable slit lamp weighs only about 0.7kg with its battery and fits easily and comfortably in your hand.

Its ergonomic, portable design and convenient carrying case make it an ideal instrument for non-ambulatory patients, nursing home visits, and veterinary work.

High luminance light source provides about 30000 lux of white light and has a life span of 50,000 hours or more; providing bright, consistent light. Portable Slit Lamp comes with two long-

lasting batteries that can power the instrument at maximum illumination for up to five to six hours.

portable slit lamp also comes with its own battery charger, allowing you to charge the batteries as necessary.
