User Instructions & Storage

- 1. RECOMMENDED TO USE:** Head Protection Workplaces, Construction Workers, Road Workers, Mechanical Workshop, Mining, Woodworking, Logging, Grinding, Cutting, Painting, Sawfly etc.
- 2. LIMITATION TO USE:** The safety helmet is mainly used from dropping object for head protection. If it is not mentioned, such as high & low temperature, electric insulation, fire, explosion etc, please don't use it. The material of this helmet is safe for wearer's skin. It may cause allergic reaction by susceptible people. Please check before use.
- 3. FITTING & MARKING:** The helmet is designed to fit Europe & US human heads. Please adjust rotary knob & chin strips to fit your head. All helmet has safety marking on it or on package, which represent the performance of the product and suitable field of use.
- 4. STORAGE & LIFESPAN:** The helmet should be stored at room temperature and away from solvents, or solvent vapors or any corrosive materials, as these may seriously reduce the impact protection provided by the helmet. Maximum product life is 2 years.
- 5. CLEANING:** This helmets can be cleaned and disinfected with soap and warm water. It is recommended that wiping of shell be kept to a minimum and only done so with a soft non abrasive cloth.

Soft Head Hoop

Head Hoop are made in hoop straps, suport straps, sweat band, and padded material etc. The top strap is cross shape design. There are 4 or 6 fixed points to be equipped on helmet shell easily.

Adjustable Rotary Knob

Adjustable buckle are made in original PP material. It is easy to adjust the fitting with different size of head. The quality is reliable and can be used within its lifespan.

Chin Strip Design

Chin Strip are made in nylon belt and PP material locking system, which is designed for adjustable usage. The strip can be tied to the chin to fix the helmet. It is allowed to removed and washable. There are different chin strip colors to choose to fit helmet colors or customer's likes.
