

# FR/FKR-900

## AUTO REFRACTOR

### PERFORMANCE FEATURE

- ELECTRIC JAW • ADJUSTABLE DISPLAY LCD
- ROTATING PRISM TECHNOLOGY • AUTOMATIC PAPER CUTTING
- AUTOMATIC TRACKING/FOCUS, AUTOMATIC MEASUREMENT

### SPECIFICATIONS

|                                                                           |                                           |
|---------------------------------------------------------------------------|-------------------------------------------|
| Vertex distance                                                           | 0、12.0、13.75、15.00mm                      |
| Spherical degree measurement range                                        | -25.00D ~ +25.00D                         |
| Column mirror measurement range                                           | -10D ~ +10D                               |
| Axis measurement range                                                    | 0° ~ 180°                                 |
| Interpupillary distance measurement range                                 | 10mm ~ 85mm                               |
| Minimum measurement pupil diameter                                        | Φ2.0mm                                    |
| Radius of curvature measurement range                                     | 5mm ~ 10mm                                |
| The measurement range of the principal meridian axis of corneal curvature | 0° ~ 180°                                 |
| Corneal diameter measurement range                                        | 2.0mm ~ 12.0mm                            |
| Display                                                                   | 6.5 inch LCD display                      |
| Printer                                                                   | Built-in imported thermal printer         |
| Power saving mode                                                         | 1/5/10/20/40 minutes no operation         |
| Power supply                                                              | ~220V 50Hz 75VA                           |
| Size / weight                                                             | 255mm (W) X490mm (D) X460-490mm (H) /18kg |
