

## Push button blood collection set

- Push button blood collection set features a push button safety mechanism that instantly helps protect you against needlestick injury. Its in-vein activation reduces the risk of healthcare worker exposure to a contaminated needle, provides easy activation without patient discomfort and works well in high-risk environments.

Types: Push button blood collection set without holder and Push button blood collection set with holder

Push button blood collection set

SIZE		COLOR	Needle Length	Tubing length	REF
