

Cable and Litz Wire Division

Key Products:

- ◆ Silk covered wire series
- ◆ Wire insulation series
- ◆ Wire and cable series

Polyester Yarn Package Paint Copper Wire

Specification Type:

- ◆ SDTR Monofilament covered copper wire
- ◆ SEDTR Double wire covered copper wire
- ◆ SDQZ Monofilament covered copper wire package polyester paint
- ◆ SEDQZ Double wire package polyester paint covered copper wire
- ◆ SDQA Monofilament covered copper wire bundle pack polyurethane paint
- ◆ SEDQA Double wire package polyurethane paint covered copper wire
- ◆ SDQZJ Monofilament package more than polyester thread
- ◆ SEDQZJ More than double wire package polyester Strands
- ◆ SDQAJ Monofilament package polyurethane multi-strand line
- ◆ SEDQAJ Double wire package polyurethane multi-strand line
- ◆ SDQACC Monofilament covered copper wire package special polyurethane paint SEDQACC Double wire bundle of special polyurethane paint covered copper wire

Temperature Class:

A Class (105°C), B Class (130°C), F Class (155°C)

Production Standard:

Φ0.07mm ~ 2.0mm

Φ(0.05 ~ 0.50mm) ×N Strand N:3 ~ 950

Sectional Area:

Less than 4mm²

Application:

Suitable for manufacturing various electronic instruments, meters, inductance components, and other occasions.

Product Standard:

GB11018-89

Note:

- ◆ The technical indicators of polyester yarn covered wire meet the standard requirements
- ◆ Good high frequency electrical performance
- ◆ Polyester silk covered wire with polyurethane enameled wire as the core wire, has good straight soldering performance, solder temperature $375\text{ }^{\circ}\text{C} \pm 5\text{ }^{\circ}\text{C}$

P.S. Other types of polyester yarn covered wire can be produced according to customer needs.
