

Safety Caps For HPLC

Product Description

0111 is a safety cap for HPLC, using sealed extraction technology. New materials and special processes have been used to design the safety cover to provide both sealing and barrier functions. It can effectively prevent more than 99% of harmful solvent gases from evaporating out, protecting the physical and mental health of laboratory staff. The integrated air valve also keeps dust above 1 μm in the outside air out, preventing contamination of expensive solvents and reducing costs. It has four advantages--safety solution, cost reduction, health protection and environmental protection.

Product Features

■ Separating

Separating dust and contaminants above 1 μm in the outside air, preventing expensive solvents from being contaminated.

■ Sealability

Preventing the mobile phase of the bottle of solvent from evaporation to the air, polluting the environment.

■ Safety

Improving the laboratory environment and protecting the health of the staff.

Product Specifications

Item Name	Material	Screw Cover Size	Tube Size	Usage
0111	PP Mix Plastic, PTFE, PFA	GL45	3.2mm/2.3mm/1.6mm	HPLC
Feature	Anti-corrosion, strong sealing			
Certificate	REACH/SGS			

Safety Caps For HPLC

Terms & Conditions

1. Validity: 1 month
2. Payment terms: T/T 30% as deposit, the balance should pay before loading
3. The quotations will be changed with the fluctuation in exchange rate exceeding 5%
4. Delivery time: within 5 work days from the date receive the deposit
5. Currency: USD
