

Aluminium Alloy Rolling Shutter Door

PRODUCT DESCRIPTION

Secure your home or business in style with aesthetically pleasing Aluminium Roller Shutters, highly customisable to suit the specific needs and requirements of your premises.

Every shutter is built to your required sizes and dimensions. We can deliver higher security or insulated models as necessary to suit your particular needs.

Suitable for: Insulated models can be used to make homes warmer and reduce energy costs. Their potential for customisation means they can easily be made to provide a discreet finish for homes and garages. High-security perforated or punched models are popular for retail units, where they offer enhanced security without detracting from the look of the shop front.

Aluminium roller shutters are perfect for domestic & commercial applications, they can come in a range of colours and are lightweight so they're very fuel efficient whilst keeping your assets safe & protected from theft. These are perfect for garage doors or as security & insulation on windows or patio doors.

IDEAL USES

- Warehouses
- Shop fronts
- Garage doors

KEY FEATURES

More lightweight than a steel shutter meaning less strain will be caused on the motor when operating.

Can be powder coated two different colours, front and back. Can come with window panels if required.

There are also further options to choose from when purchasing high security steel roller shutters, such as traditional steel roller shutters & galvanised steel roller shutters.
